

Training:

Hands-on BloodHound - Intro to Cypher Workshop

Date of the training: **March 16, 2020** in Heidelberg, Germany

Book now using the voucher code: **TR20_HMTS** and save an additional 5% of the current valid rate of any package!

Overview

This is a one-day training only. Originally designed for Red Team operations, BloodHound offers a unique way of viewing Active Directory, and can be very useful for Blue Teams, security consultants, or Admins wanting to gain insight on their premises. But the BloodHound database holds a lot of data... Learning some Cypher is a must if you want to get the most out of BloodHound, and this is what we are going to do...

In this training you will:

- Understand the various components of BloodHound,
- Learn the ins & outs of the BloodHound UI,
- Understand the basic of Cypher (neo4j DB query language),
- Build your own custom queries (metrics),
- Query BloodHound from the UI / Browser / REST API,
- Understand how to build tools to expand BloodHound.

Agenda

- What is BloodHound?
- Data & Collection
- Cypher - Basics
- Cypher - Advanced
- REST API
- Custom Tools & Automation

Prerequisites

- Good understanding of Active Directory.

Requirements

- Bring your own win10 laptop [or VM].

About the Trainer

Walter Legowski [@SadProcessor] Windows Security Consultant - ERNW [DE] Likes Tools/Automation/PowerShell.
